### Reply to the Editor Decision

Dear Editor Greg Balco,  
Dear Associate Editor Pieter Vermeesch,

Thank you for your response and for your final decision to accept our manuscript for publication in Geochronology. We are delighted that we can contribute to this new journal.

In the final version of our manuscript we have addressed all changes suggested by Prof. Gleadow. All references to the LSC tool are now uniform (including in the supplement). We also added a short explanation on how the system automatically detects the bounding box of large single crystals. We are also grateful to the spelling suggestions and corrections provided by Prof. Gleadow and as such applied them in our manuscript.

Yours faithfully,

Gerben Van Ranst, on behalf of all co-authors
