The image contains a set of graphs with data on different isotopes over time. The isotopes include 44Ca, 26Mg, 238U, and 204Pb. Each graph shows a time series with different levels, indicating the concentration or activity of these isotopes. The time axis is labeled 'time' and ranges from 1000 to 5000. The graphs are labeled with different materials such as NIST 614, NIST 612, WC1, Mg-rich ALH84, Ca-rich ALH84, B6, DBT, and WC1.
